QX MODULAR DESK SYSTEM
ENGINEERED FOR THE MODERN
WORKSPACE.
WHERE PRECISION MEETS
FLEXIBILITY.

COLLECTION OVERVIEW

Designed for the way you work today

Bridge-frame construction with a shadow gap for a lighter, more refined visual effect.

QX represents Metro's advanced desk system, combining clean, contemporary design with careful attention to detail. Each desk is crafted from sustainably sourced materials and built to meet European office furniture standards.

Whether configuring a single workstation or an entire open-plan office, **QX** adapts seamlessly with its modular frame system, integrated cable management, and extensive range of accessories. Together with the dedicated ORGANIZER accessory system, it offers virtually unlimited arrangement possibilities.

Perfection lies in the details.

Our frames are manufactured with the highest precision — visible welds are eliminated in exposed areas, ensuring the structure retains its perfect geometry without distortions caused by the welding process, especially along the profile edges. This results in a clean form, impeccable aesthetics, and exceptional durability.

FUNCTIONALITY

Features

Modular & scalable

Wide range of sizes with height adjustment — pick the footprint that fits the room and set the working level to suit each user.

Accessory ready

Mount monitor arms, CPU holders, cable trays, and power modules without drilling. The under-desk rail accepts 30+ certified accessories from day one or after years of use.

Quick & simple assembly

Pre-assembled frame keeps installation fast and straightforward. One person can complete a full desk without specialist help.

FUNCTIONALITY

Features

✦ Seamless welded joints

Profile joints are welded and finished without visible seams, leaving the frame clean and uniform from every angle.

Optional return desk

A side return can be attached to extend the work surface — useful for L-shape setups and longer workstations.
